

How creative are you?

Family Activity

reach

Your task is to write a rap or a poem to describe your day in the outdoors, which includes 10 different sounds that you hear and record on your phone as you walk around.

Think about

What do you need to do?

What will you do first?

Why?

What sounds might you hear today?

Why do you think that?

How will you make sure you are able to record these on your phone?

Will you think of words first and then record sounds to go with them?

OR

Will you record sounds and then think of the words?

Why do it this way?

How will you put the whole thing together?
